SAFETY GLASSES 569-G

Produkta kods: 569-G

- The 569-G goggles are designed to provide effective protection against impacts from high-speed, low-energy particles and sunlight (in the workplace). These goggles are capable of withstanding the impact of small projected particles, such as wood, metal, or plastic chips, filings, as well as plant stalks and twigs generated when using gardening machinery. The speed of these particles should not exceed 45 m/s. Their unique design minimizes the limitation of lateral vision, and their optical neutrality ensures long-term comfort, allowing them to be worn for extended periods without causing discomfort.
- Scratch resistant polycarbonate for increased durability
- Protection against hazard of impact from high-speed and low energy particles
- Available in 3 different lens colors
- Adjustable arms
- Spatula type temples for comfortable adjustment
- Ergonomic design
- Single panoramic eyepiece made in yellow-coloured polycarbonate which acts as an ultraviolet radiation filter
- Lightweight frame
