

## JŪRAS UN DARBA APĢĒRBS ► BRILLES

### SAFETY GLASSES 569-A

- The 569-A goggles are specifically engineered to offer effective protection against impacts from high-speed, low-energy particles. These goggles are capable of withstanding impacts from small projected particles, such as wood, metal, or plastic chips, as well as plant stalks and twigs. They also provide excellent protection against UV radiation. The goggles' special design minimizes the restriction of lateral vision and their optical neutrality allows for long-term wear without discomfort.
- Scratch resistant polycarbonate for increased durability
- Protection against hazard of impact from high-speed and low energy particles
- Available in 3 different lens colors
- Adjustable arms
- Spatula type temples for comfortable adjustment
- Ergonomic design
- Single panoramic eyepiece made in yellow-coloured polycarbonate which acts as an ultraviolet radiation filter
- Lightweight frame
