SAFETY GLASSES 595-G

Produkta kods: 595-G

- The 595-G spectacles are designed to provide effective protection against high-speed, low-energy particles and sunlight (in the workplace). They can withstand small projected particles, such as wood, metal, and plastic chips, filings, and plant debris from gardening machinery, with particle speeds up to 45 m/s. Their design minimizes lateral vision limitations, while their optical neutrality and lightweight construction ensure comfort for extended wear.

The front is a single piece with a black arch-shaped polyamide strip. The extendable spatula-type sidepieces are made of black polycarbonate, with panoramic lenses ranging from 1.6 to 2.8 mm in thickness. The fixed nose supports are integrated into the eyepiece.

- Scratch resistant polycarbonate for increased durability
- Protection against hazard of impact from high-speed and low energy particles
- Available in 3 different lens colors
- Spatula type temples for comfortable adjustment with pantoscopic system
- Ergonomic design
- Lightweight frame

- CE Certified
- EN 166:2001 (personal eye protection)
- EN 172 (sunglare filters for industrial use)
- Regulation (EU) 2016/425
