SAFETY GLASSES 597-G

Produkta kods: 597-G

- The 597-G spectacles are designed to provide effective protection against low-energy, high-velocity particle impacts, such as wood, metal, and plastic chips, as well as twigs and branches from gardening machinery. They also offer excellent protection against solar radiation, shielding the wearer from direct sunlight. The design minimizes limitations on lateral vision, and the optical class and lightweight construction ensure comfort during extended wear.

Made from lightweight grey nylon, the spectacles feature a soft, universal-fit bridge for easy adjustment. The temples are adjustable in length with a pantoscopic system.

- Made from high-quality optical polycarbonate
- Soft nose bridge and adjustable length temples with pantoscopic system
- Protection against hazard of impact from high-speed and low energy particles
- Available in 3 different lens colors
- Spatula type temples for comfortable adjustment
- Anti-fog and anti-scratch treatments
- Visible light transmittance: 88%
- UV filtration: 2C – 1, 2
- Optical class: 1
