## WELDING SHIELD WITH AUTO DARKENING VISOR 415-E

Produkta kods: WP415E

- The 415-E Welding Face Shield is designed for enhanced protection in various welding applications such as electrode, MIG/MAG, TIG, and plasma welding. It provides robust protection against harmful radiation and hot particles while offering clear visibility for precise work. The shield includes a helmet shell, adjustable harness, and a high-quality welding filter for optimal safety and comfort.
- This welding face shield is ideal for professionals requiring high-performance protection during various welding and cutting operations.
- **High-Quality Filter:** Features a TrueColor LCD welding filter with an optical rating of 1/1/1/2 for true color vision and clear visibility of the welding area.
- **Large Viewing Area:** Offers a 96 x 39 mm viewing area with two arc sensors for automatic darkening.
- **Adjustable Sensitivity:** Allows for fine-tuning of sensitivity to suit different welding techniques.
- **Solar-Powered & Lithium Battery:** Powered by solar cells with a backup lithium battery for extended use (up to 5000 hours).
- **UV/IR Protection:** Provides full protection up to shade 16, shielding the eyes from UV and infrared radiation.
- **Comfortable Fit:** The adjustable harness allows for a custom fit, ensuring comfort during extended use.

### Specifications:

- Filter Size: 110 x 90 x 9 mm
- Response Time: 0.0002 s
- Clearing Time: 0.1 – 1 s
- Weight: 0.715 kg
- Certifications: EN 175: 1997, EN 379: 2012, EN 50365
- Power Supply: Solar cells and lithium battery

- CE Certified
- EN 166
- EN 175
- EN 379
- EN 397
- EN 50365
