14 MM FLEXIBLE ANCHOR LINE ROPE

Produkta kods: R14MM

- The 14 mm Flexible Anchor Line Rope is engineered for marine and offshore professionals requiring reliable vertical fall protection. Designed for use with guided-type fall arresters compliant with EN 353-2, this rope offers durability and performance in challenging maritime environments.

Key Features:

- **Material:** Constructed from 3-ply high-strength polyamide, providing excellent resistance to abrasion and environmental factors.
- **Diameter:** 14 mm, suitable for use with compatible fall arrest devices.
- **Elongation Characteristics:**
 - At 500 daN: 23%
 - At 1000 daN: 33%
 - At 1500 daN: 39%
 - At 2000 daN: 43%
- **Breaking Strength:** 4,000 kg, ensuring reliable performance under load.
- **Finishes:** Available with sewn loops and terminal knots or thimbles at the ends, accommodating various anchoring configurations.
- **Weight:** 115 g/m, balancing strength and manageability.
- **Length:** Customizable lengths available upon request to suit specific operational requirements.
