742 FULL FACE MASK (CLASS 1)

Produkta kods: 742FFM

- The 742 full-face mask is a lightweight Class 1 respirator designed for marine and offshore professionals who require reliable respiratory protection in contaminated environments where oxygen levels exceed 19.5%. Made from thermoplastic elastomer and fitted with a wide Class 1 polycarbonate visor, it offers excellent visibility and impact resistance. The lateral bayonet connection system is engineered to ensure correct filter attachment and is compatible with 757 and 757 N filters. A 5-point harness provides a secure and comfortable fit for extended use in demanding conditions.

Key Features:

- **Durable Construction:**
  – Thermoplastic elastomer facepiece for lightweight durability
  – Impact- and scratch-resistant panoramic visor (Class 1, rated F)
  – Designed for use in marine and industrial environments
- **Ergonomic Fit:**
  – 5-point harness system for a stable and adjustable seal
  – Lightweight design (454 g) for reduced fatigue during extended wear
- **Versatile Protection:**
  – Lateral bayonet filter connection
  – Compatible with 757 and 757 N filters (gas, particle, or combined)
  – Bayonet interface prevents incorrect filter installation
- **Performance:**
  – Suitable for use in atmospheres with oxygen levels >19.5%
  – Class 1 full-face mask with high-impact visor

Technical Specifications:

- Material: Thermoplastic elastomer (facepiece), polycarbonate (visor)
- Weight: 454 g
- Filter Interface: Lateral bayonet
- Compatible Filters: 757 / 757 N
- Protection Level: Class 1 full-face mask

- CE Certified
