755 SEMI MASK (HALF FACE RESPIRATOR)

Produkta kods: RP755

- The 755 semi-mask is designed for marine and offshore professionals who require dependable and reusable respiratory protection in environments with harmful gases, vapors, or airborne particles. Constructed from highly flexible thermoplastic rubber, it ensures a comfortable and durable fit for extended use. Its dual side filter ports reduce breathing resistance, and the adjustable harness and neckband ensure a secure and adaptable seal. The threaded interface is compatible with 755 and 756 filters.

Key Features:

- **Durable Construction:**
 - Reusable half-mask made of thermoplastic rubber for durability and flexibility
 - Dual side filters reduce breathing resistance and improve comfort
- **Ergonomic Fit:**
 - Adjustable harness and neckband provide a secure and adaptable fit
 - Lightweight design (1297g) suitable for prolonged use in challenging environments
- **Versatile Protection:**
 - Threaded connection system compatible with 755 and 756 filters
 - Suitable for gas, vapor, particle, or combined filtration
- **Performance:**
 - Nominal Protection Factor (NPF): 50
 - Ideal for use in marine and industrial environments with moderate exposure risks

Technical Specifications:

- Material: Thermoplastic rubber
- Weight: 1297g
- Filter Interface: Threaded connection
- Compatible Filters: 755 / 756
- Protection Level: Half-face respirator

- CE Certified
- EN 140
