756 SEMI MASK (HALF FACE RESPIRATOR)

Produkta kods: RP756

- The 756 semi-mask is a reusable respiratory device designed for marine and offshore personnel operating in environments with gas, vapor, or particulate exposure. Constructed from highly flexible natural rubber, it offers excellent adaptability to the user's facial structure. The dual side filter ports minimize breathing resistance, while the head harness provides stability and comfort. Its thoughtful design allows the mask to be conveniently worn around the neck when not in use. Compatible with 755 and 756 filters.

Key Features:

- **Durable Construction:**
  - Made of natural rubber for superior flexibility and longevity
  - Dual side filters reduce breathing effort and enhance airflow
- **Ergonomic Fit:**
  - Adjustable head harness ensures stability and optimal fit
  - Designed to rest comfortably around the neck when not in active use
  - Heavier-duty structure provides a firm seal in varied marine conditions
- **Versatile Protection:**
  - Threaded filter interface compatible with 755 and 756 filters
  - Supports gas, vapor, particle, or combined filtration configurations
- **Performance:**
  - Nominal Protection Factor (NPF): 50
  - Suitable for moderate exposure levels in maritime and industrial operations

Technical Specifications:

- Material: Natural rubber
- Weight: 215g
- Filter Interface: Threaded connection
- Compatible Filters: 755 / 756
- Protection Level: Half-face respirator

- CE Certified
- EN 140
