762 S SEMI MASK (HALF FACE RESPIRATOR)

Produkta kods: RP762S

- The 762 S semi-mask is engineered for marine and offshore professionals who require dependable respiratory protection with enhanced breathing comfort. Made from thermoplastic elastomer (TPE), this reusable half-face respirator features a central bayonet-style filter connection and dual side exhalation valves for optimal airflow. The adjustable harness and neckband ensure a secure, customized fit. Compatible with 757 filters, it delivers effective protection against gases, vapors, and particulates.

Key Features:

- **Durable Construction:**
 - Flexible TPE facepiece designed for durability and resistance in harsh marine environments
 - Central bayonet filter mount with side exhalation valves for reduced breathing resistance
- **Ergonomic Fit:**
 - Adjustable harness and neckband for a secure and comfortable fit
 - Lightweight build (145g) minimizes fatigue during extended wear
- **Versatile Protection:**
 - Bayonet-style filter connection system for easy and secure filter replacement
 - Compatible with 757 filters for gas, vapor, or particulate protection
- **Performance:**
 - Nominal Protection Factor (NPF): 50
 - Suitable for moderate-risk areas aboard vessels, offshore rigs, and industrial zones

Technical Specifications:

- Material: Thermoplastic elastomer (TPE)
- Weight: 145g
- Filter Interface: Bayonet connection
- Compatible Filters: 757
- Protection Level: Half-face respirator

- CE Certified
- EN 140
