800 SEMI-MASK (HALF-FACE RESPIRATOR)

Produkta kods: RP800

- The 800 semi-mask is designed for marine and offshore personnel who require dependable respiratory protection against gases, vapors, and airborne particulates such as dust, mist, and fumes. Made from thermoplastic elastomer (TPE), it offers both durability and comfort during extended use. The bayonet filter connection ensures secure attachment and compatibility with 757 N filters. Lightweight and ergonomic, the 800 semi-mask is ideal for moderate exposure scenarios where full-face protection is not required.

Key Features:

- **Durable Construction:**
 - Thermoplastic elastomer (TPE) facepiece provides flexibility and resistance to wear
 - Robust design suitable for repeated use in harsh marine environments
- **Ergonomic Fit:**
 - Lightweight construction (131g) enhances user comfort
 - Form-fitting structure ensures a secure and comfortable facial seal
- **Versatile Protection:**
 - Bayonet connection system for quick, secure filter changes
 - Compatible with 757 N filters (gas, particle, or combined)
- **Performance:**
 - Nominal Protection Factor (NPF): 50
 - Ideal for use in environments with low to moderate levels of airborne contaminants

Technical Specifications:

- Material: Thermoplastic elastomer (TPE)
- Weight: 131g
- Filter Interface: Bayonet connection
- Compatible Filters: 757 N
- Protection Level: Half-face respirator

- CE Certified
- EN 140
