SAFETY GLASSES 595-A

Produkta kods: 595-A

- The Climax 595-A spectacles are designed to provide effective protection against high-speed, low-energy particles and UV radiation. They can withstand impacts from small projected objects such as wood, metal, and plastic shavings, as well as plant debris from gardening machinery, with particle speeds up to 45 m/s. The design minimizes lateral vision limitations, and their neutral optics and lightweight construction ensure comfort during extended use.

The front features a single piece with a black arch-shaped polyamide strip. The extendable spatula-type sidepieces are made of yellow polycarbonate, with panoramic lenses measuring 1.6 to 2.8 mm in thickness. The fixed nose supports are integrated into the eyepiece.

- Scratch resistant polycarbonate for increased durability
- Protection against hazard of impact from high-speed and low energy particles
- Available in 3 different lens colors
- Spatula type temples for comfortable adjustment with pantoscopic system
- Ergonomic design
- Lightweight frame

- CE Certified
- EN 166:2001 (personal eye protection)
- EN 170:2002 (UV filters)
- EN 172 (sunglare filters for industrial use)
