• J Line – Safety Shoe range is designed to meet the demands of various activities, combining cutting-edge materials with superior protection. Featuring an ultra-lightweight and breathable construction, these shoes ensure maximum comfort throughout the day. Equipped with a composite toe cap for high compression resistance and a non-metallic, multilayer anti-perforation textile, they offer exceptional protection against punctures. The dual-density polyurethane sole provides antistatic properties and is highly resistant to oil, hydrocarbons, hydrolysis, and abrasion. Additionally, the shock-absorbing heel enhances comfort, while the shoe’s excellent flexibility ensures ease of movement. With its advanced design, the J Line Safety Shoe offers the ultimate in safety, durability, and comfort.

- High-tech water-repellent BITEX technical textile upper
- Anti-slip dual density PU sole, resistant to oil and fuel
- Composite ITSAFE toe cap, impact resistant up to 200 Joule. Non-magnetic, thermal insulating, reduced thickness, 50% lighter than steel toe cap
- Zero perforation midplate
- BIFRESH PLUS 3D lining with high breathability and top abrasion resistant
- Antistatic shoes
- Shock absorbing heel
- Reflective accessories
- Protection against electrostatic discharges (ESD)
- Metal Free

- CE Certified
- S3 SRC ESD
- EN ISO 20345:2011
