WELDING SHIELD 405-C

Produkta kods: WP405C

- The 405-C Welding Face Shield is designed for effective protection against radiation emitted during welding processes and against incandescent particles released during welding. The helmet shell and fastener system are fully adjustable, ensuring a perfect fit for various head sizes and shapes. This shield covers the entire face and neck, offering protection from potential burns.
- The 405-C Welding Face Shield ensures reliable protection, comfort, and durability, making it an ideal choice for professionals in welding applications.

- **Helmet Shell:** Made from fire-resistant polyamide with fiberglass for excellent flame resistance. The shield covers the entire face and neck, providing full protection from burns.
- **Lens:** Equipped with a rectangular cavity for an inactive filter, the shield comes with a standard tone 12 filter. Additional shades (9-13) are available to meet different welding needs.
- **Polycarbonate Cover:** A 1mm thick, colorless polycarbonate cover protects the inactive filter from impacts and debris.
- **Adjustable Fastener System:** Includes a contour strap and a cross strap with seven adjustable positions for a custom fit. The contour strap features two comfort cushions to reduce pressure on the head.
- **Weight:** 550 g

Specifications:

- Lens Size: 110 x 90 mm
- Filter Shade: 12 (with options for shades 9-13)
- Harness Size: 56 – 64 cm
- Weight: 550 g
